PROFILE

Freelance full-stack web developer and Computer Science & Engineering student, graduating in 2028. Builds client websites with React, Next.js, TypeScript and PostgreSQL, from UI/UX to backend functionality. Open to freelance projects, internships and entry-level development roles.

TECHNICAL SKILLS

Languages and frontend: JavaScript, TypeScript, HTML5, CSS, React, Next.js, Redux, React Router, Bootstrap

Backend and data: PostgreSQL, API integration, authentication, Vercel serverless functions, web analytics

Design and motion: UI/UX, Figma, Material Design, responsive design, RTL, GSAP, ScrollTrigger, Lenis

Tools and practices: GitHub, Vite, Axios, Vercel, SEO structure, debugging, testing, AI-assisted development

FREELANCE EXPERIENCE

Independent Full-Stack Web Developer | 2025 - Present

- Translate client briefs into information architecture, visual direction and working websites, with individual ownership of design, implementation and testing.

SELECTED PROJECTS

Easylink Telecom | Client project

Next.js, React, TypeScript, PostgreSQL, GSAP | [Live site](#)

- Designed and developed a marketing website for a communications and security systems company, covering UI/UX, responsive layouts, bilingual microcopy and SEO structure.
- Integrated first-party analytics, PostgreSQL, authentication and private dashboard views; implemented scroll-driven motion and tested the experience.

Qalb Zaker | Client project

HTML, CSS, JavaScript, GSAP, ScrollTrigger, Lenis | [Live site](#)

- Designed and built an Arabic RTL landing page for a dhikr application, owning visual direction, content structure and responsive frontend implementation.
- Created a scroll-driven storytelling experience with layouts adapted for desktop and mobile.

Bookworm | Independent course capstone

React, Vite, React Router, Axios, Bootstrap, Vercel | [Live site](#) | [Source code](#)

- Conceived and built a digital library and browser reader from scratch, integrating Gutendex for book search, filtering and discovery.
- Implemented reading preferences, bookmarks and saved progress in localStorage, plus a serverless text-fetching endpoint and loading, empty and error states.

EDUCATION AND TRAINING

Bachelor's degree in Computer Science & Engineering | New Mansoura University

October 2024 - Expected graduation 2028

Full-Stack Web Development Summer Training | Creativa | 2024

PROFESSIONAL SKILLS AND LANGUAGES

Client requirements analysis, independent project ownership, problem-solving and attention to UI detail.
Arabic: Native | English: Good working proficiency; comfortable with conversation and discussion.
