Ahmed Abo Zahra

React & Next.js Developer

Giza, Egypt | +20 101 075 2614 | ahmedabozahra68@gmail.com

Portfolio | LinkedIn | GitHub

PROFILE

Freelance web developer building responsive business websites, landing pages, and React/Next.js interfaces with TypeScript. Particular care for Arabic RTL layouts, API integration, and clear user journeys. Independently handles design and implementation; Computer Science & Engineering student, graduating in 2028.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, React Router, Bootstrap

Integration & interaction: REST APIs, Axios, localStorage, GSAP, ScrollTrigger, Lenis

Delivery: Responsive design, Arabic RTL, semantic HTML, SEO page structure, Git/GitHub, Vite, Vercel, debugging and browser testing

EXPERIENCE

Independent Web Developer | Freelance | 2025 - Present

- Translate client requirements into content structure, visual direction, responsive interfaces, and working websites; own design, implementation, testing, and release checks.

SELECTED PROJECTS

Easylink Telecom | Client project - Live website

Next.js, React, TypeScript, GSAP

- Independently designed and developed the public communications and security business website: company, product, service, and contact pages; Arabic and English content; responsive layouts and SEO structure.

- Published at easylink-eg.com with direct enquiry, telephone, email, and WhatsApp routes; organized service information to guide visitors from discovery to contact.

Qalb Zaker | Arabic RTL Landing Page | Client project - Live page

HTML, CSS, JavaScript, GSAP, ScrollTrigger, Lenis

- Designed and built the Arabic landing page from scratch, including RTL navigation, content hierarchy, responsive desktop/mobile layouts, and scroll-driven animation. Created product introduction, feature, and FAQ sections with a coherent right-to-left reading flow.

Bookworm | Independent course capstone - Live project | Source code

React, Vite, React Router, Axios, Bootstrap, Gutendex API

- Conceived, designed, and implemented a digital library with Gutendex search, topic/language filters, book details, and a browser text reader.

- Built bookmarks, reading preferences, and saved progress in localStorage, a serverless text-fetching endpoint, and loading, empty, and error states. Saved reading data stays in the current browser.

EDUCATION & TRAINING

New Mansoura University | Computer Science & Engineering
Bachelor's degree | October 2024 - Expected graduation 2028

Creativa | Full-Stack Web Development Summer Training | 2024

PROFESSIONAL SKILLS & LANGUAGES

Client requirements analysis, independent project ownership, problem-solving, and attention to interface detail.

Arabic: Native | English: Good working proficiency; comfortable with conversation and discussion.
