Ahmed Abo Zahra

Web Developer | React & Next.js

Giza, Egypt | +20 101 075 2614 | ahmedabozahra68@gmail.com

Portfolio | LinkedIn | GitHub

PROFILE

Web developer working with React, Next.js, and TypeScript. Independently designs and implements responsive business websites, bilingual storefronts, and management interfaces, with particular care for Arabic RTL. Experience with API integration, Next.js route handlers, and validated application workflows. Computer Science & Engineering student seeking a web development role; expected graduation 2028.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, responsive design, Arabic RTL

Application logic: REST APIs, Next.js route handlers, signed cookie sessions, server-side validation, localStorage

Interaction & delivery: GSAP, ScrollTrigger, Lenis, Git/GitHub, Vercel, semantic HTML, SEO structure, debugging and browser testing

EXPERIENCE

Independent Web Developer | Freelance | 2025 - Present

- Own client requirements, content structure, visual design, implementation, responsive testing, and release checks for independently delivered websites.

SELECTED PROJECTS

ASO CLO | E-commerce storefront & partner dashboard - Case study

Next.js, React, TypeScript, route handlers | Independently designed and developed

- Built bilingual product browsing, search/filter/sort, size/color selection, persistent cart, and demo checkout with server-derived prices and stock/variant validation.

- Implemented partner product/order management, signed admin sessions, ownership checks, order tracking, and CSV reports. Demonstrated locally with fictional data; online payment is disabled. Public preview is a separate frontend-only version.

Easylink Telecom | Business website | Client project - Live website

Next.js, React, TypeScript, GSAP | Independently designed and developed

- Designed and developed the published communications/security website: company, product, service, and contact pages, Arabic/English content, responsive navigation, SEO page structure, and direct email/phone/WhatsApp enquiry routes.

Qalb Zaker | Arabic RTL landing page | Client project - Live page

HTML, CSS, JavaScript, GSAP, ScrollTrigger, Lenis | Independently designed and developed

- Built the Arabic landing page from scratch: visual direction, RTL hierarchy, desktop/mobile layouts, product/feature/FAQ sections, and scroll-driven motion. App download links are coming soon; this project demonstrates the landing page.

EDUCATION & TRAINING

New Mansoura University | Computer Science & Engineering
Bachelor's degree | October 2024 - Expected graduation 2028

Creativa | Full-Stack Web Development Summer Training | 2024

PROFESSIONAL SKILLS & LANGUAGES

Requirements analysis, independent project ownership, problem-solving, and attention to interface detail.

Arabic: Native | English: Good working proficiency; comfortable with conversation and discussion.
